Coverage	8.07 sq ft per box
Pieces per box	approx. 60
Installation	Wall
Use	Indoor
Water absorption	14%
Origin	Spain
SKU	ET-AURO-0210GO

Why you will love it

- Spain-made ceramic fired at very high kiln temperatures for a hard, dense body and a glaze that keeps its color for decades.
- Heat resistant and color-fast: a great choice around stoves, backsplashes, showers and fireplace surrounds, with a surface that handles everyday temperature changes indoors.
- Easy to clean, hygienic and stain resistant: wipe with warm water and a pH-neutral cleaner.
- Natural shade variation between pieces gives an authentic, timeless look.

Installation & care

- Install with a white or gray thinset suited to ceramic tile; recommended grout joint 1/16" to 1/8".
- Blend pieces from several boxes during installation for an even mix of tones.
- Order about 10-15% extra for cuts and future repairs. Order a sample first to see the true color.

Specifications are approximate and may vary between production runs. Confirm details before installation.
