| **Installation** | Wall |
| **Use** | Indoor |
| **Shade variation** | V1 |
| **Water absorption** | <0.5% |
| **Origin** | Spain |
| **SKU** | ET-CASA-M0606JA |

## Why you will love it

- Spain-made porcelain fired at very high kiln temperatures for a hard, dense body and a glaze that keeps its color for decades.
- Low water absorption makes it frost resistant and tough enough for cold winters, heat and daily traffic.
- Easy to clean, hygienic and stain resistant: wipe with warm water and a pH-neutral cleaner.
- Natural shade variation between pieces gives an authentic, timeless look.

## Installation & care

- Install with a white or gray thinset suited to porcelain tile; recommended grout joint 1/16" to 1/8".
- Blend pieces from several boxes during installation for an even mix of tones.
- Order about 10-15% extra for cuts and future repairs. Order a sample first to see the true color.

Specifications are approximate and may vary between production runs. Confirm details before installation.
